Vehicle Tracking

Our customers are **PEOPLE**, not vehicles.

Our customers are **PEOPLE**, not vehicles.

Essential Security

Enhanced Security

Ultimate Security, with Value-Added Personal Safety Services

Company Overview

Matrix Vehicle Tracking was formed in 1996. Over time and through continuous innovation and development, Matrix experienced exponential growth. Towards the end of 2008, Matrix became part of the global telematics giant: MiX Telematics. As a result, Matrix became part of MiX Telematics' consumer solution.

Matrix is at the forefront of technological innovation in the vehicle tracking industry and has developed a number of value-added vehicle tracking services, such as Crash Alert, Roadside Assist, NoGo-Zones, Early Warning, Auto Logbook, Service Notification and Smartphone Tracking. Matrix was also the first brand to employ the combined use of RF, GSM and GPS technologies, which is now the flagship standard within the vehicle tracking industry.

The differentiating factors for Matrix are its customer-centred attitude, technological innovation and trustworthiness. The combination of these values coupled with our core value of 'Our customers are **PEOPLE**, not vehicles', has enabled Matrix to develop into the much loved and trusted vehicle tracking and recovery brand it is today.

Install a Matrix today and start driving with peace-of-mind, knowing that your safety is in the best of hands - our hands!

MATRIX TABLE OF TRACKING SERVICES

	FEATURE	BENEFIT	MX1	MX2	MX3
	Insurance Approved	May lower your premium with most insurers.	✓	✓	✓
	FastTrac	Locate the proximity of your vehicle quickly, provided GSM coverage is available.	✓	✓	✓
	X-Ray Vision	Locate the proximity of your vehicle even when it is parked in a basement or under a roof, provided GSM coverage is available.	✓	✓	✓
	Self-Powered Back-Up Battery	Keeps the unit active, for a limited period of time, when your vehicle's battery is disconnected or runs flat over a period of time.	✓	✓	✓
	National Network Coverage	Enables tracking of your vehicle throughout South Africa, provided GSM coverage is available from our chosen network provider.	✓	✓	✓
	Auto-Test	The functionality of your unit is automatically tested at regular intervals, however, you are required to test your unit at least once a month.	✓	✓	✓
	24/7 National Operations Centre	24/7, 365 day access to Matrix Recovery Services.	✓	✓	✓
	Dedicated Recovery Teams	Access to privately contracted rapid response agents in association with the SAPS, nationally.	✓	✓	✓
	Recovery*	No additional costs when a real recovery is made for stolen and/or hijacked vehicles.	✓	✓	✓
	Confidence Checks	Contact Matrix at any time of the day to test your unit.	✓	✓	✓
	Battery Tamper Alarm	Alerts Matrix when your battery is being tampered with.		✓	✓
	Internet Tracking**	Enables you to locate your vehicle(s) any time of the day or night.		✓	✓
	GPS "PinPoint" Positioning	Enables positioning the location of your vehicle.		✓	✓
	Early Warning	Early Warning will alert Matrix should your vehicle be driven without permission via a driver identification device (DID).		✓	✓
	Panic Button Remote Control*** (Standard for MX3, Optional for MX2)	Enables you to transmit a silent distress signal when you sense danger by pressing any one of the 3 buttons on the remote for longer than 3 seconds.		✓	✓
	Smartphone Tracking****	Track your vehicle(s) anytime, anywhere with any Smartphone device in real-time.		✓	✓
	Crash Alert	When your vehicle is involved in a serious crash, an alert is sent to Matrix and a proactive service can be provided.			✓
	Roadside Assistance*	If your vehicle breaks down, simply press the yellow button on your remote and we will call you to send roadside assistance to your GPS co-ordinates.			✓
	NoGo-Zones	Should your vehicle enter a predefined 'unsafe' area, an alarm will notify Matrix as a potential danger warning and we will SMS you.			✓
	Auto Logbook*****	Enables you to generate a logbook based on your travels for private or business related trips.			✓
	Service Notification	Notifies you when your vehicle is in need of its next service. (Requires registration)			✓

* Terms and Conditions apply ** Requires registration via website or by phoning (011) 654 8090 as well as Internet access. ***Optional for MX2 at an additional once-off fee for the remote control. ****Available to MX2 and MX3 customers only. *****Auto Logbook requires download of free software.

With so many tracking devices in the market today, deciding which one best suits your needs and lifestyle, can often become an impossible mission. That is why Matrix Vehicle Tracking has created packages that are designed to meet individual safety-level needs.

With a choice in service offerings of either; Essential Security, Enhanced Security or Ultimate Security with Value-added Personal Safety Services - you are sure to find the right package to suit all your safety requirements.

MX1 Essential Security

The **MX1 Essential Security** package is Matrix’s entry-level, phone-in model. Its features have been designed to facilitate the tracking and recovery of vehicles and is therefore the ideal solution when recovering* your vehicle becomes a reality.

Price Options for Private Individuals:

Cash Option	MX1
Cost of Hardware (Once-off)	R1 699.00
Monthly Subscription Fee	R 105.00
Budget (36 month Contract)	MX1
Cost of Hardware	N/A
Monthly Subscription Fee	R 139.00

Please note: This is our standard pricing (subject to annual increases), but you may be entitled to certain discounts offered by MiX Telematics’ many partners. MiX Telematics will attempt to keep annual escalation at 8% (eight percent) or the consumer price index, whichever is greater.

*Recovery process does not necessarily involve the use of the helicopter service.

Our customers are **PEOPLE**, not vehicles

MX2 Enhanced Security

When essential security is not enough, our **MX2 Enhanced Security** package is your ideal solution. With all the benefits of the **MX1 Essential Security** package, this enhanced package offers proactive, early-warning technologies that allow us to identify potential dangers in the quickest possible time; often even before the customer knows!

The MX2 also offers Internet Tracking*, so that customers may monitor the whereabouts of their vehicle and/or loved-ones. With Smartphone Tracking**, customers can now also track their vehicles anywhere, anytime and in real-time!

Price Options for Private Individuals:

Cash Option	MX2
Cost of Hardware (Once-off)	R2 999.00
Monthly Subscription Fee	R 179.00
Budget (36 month Contract)	MX2
Cost of Hardware	N/A
Monthly Subscription Fee	R 249.00

Please note: This is our standard pricing (subject to annual increases), but you may be entitled to certain discounts offered by MiX Telematics' many partners. MiX Telematics will attempt to keep annual escalation at 8% (eight percent) or the consumer price index, whichever is greater.

*Internet Tracking requires registration via website or phoning (011) 654 8090 as well as Internet access.

** Only available to MX2 & MX3 customers.

Ultimate Security, with Value-Added Personal Safety Services

This package not only includes all the features of the MX1 and MX2, but also offers additional value-added personal safety services that assist with the unavoidable day-to-day vehicle realities. These vehicle realities include: vehicle breakdowns, vehicle collisions, vehicle service checks and business/private trip records for claims/tax purposes.

For this, the MX3 offers Roadside Assist (providing numerous benefits above and beyond towing), Crash Alert (sensors will activate upon a large impact, alerting Matrix to send assistance), Service Notifications (prevents negative impacts on your warranty) and Auto Logbook (no more manual logbooks required).

If a complete lifestyle solution for all your vehicle responsibilities is what you want, then the MX3 Ultimate Security, with Value-added Personal Safety Services is what you need!

Price Options for Private Individuals:

Cash Option	MX3
Cost of Hardware (Once-off)	R3 499.00
Monthly Subscription Fee	R 199.00
Budget (36 month Contract)	MX3
Cost of Hardware	N/A
Monthly Subscription Fee	R 299.00

Please note: This is our standard pricing (subject to annual increases), but you may be entitled to certain discounts offered by MiX Telematics' many partners. MiX Telematics will attempt to keep annual escalation at 8% (eight percent) or the consumer price index, whichever is greater.

Matrix's Promise to You

At Matrix we invest strongly in our value proposition of 'Our customers are **PEOPLE**, not vehicles'. For this very reason, we believe that after a hijacking, recovering our customers' vehicle is not where our service offering should end. Although the vehicle may have been recovered, we like to take things a step further and ensure that our clients recover too! This is why we offer all our clients a free trauma counselling session after they have been involved in a hijacking. **This way we can continue to look after our real customer - you!**
